

STUDENT GOVERNMENT

The Student Council of the High School and Middle School are organizations of students with specific objectives of promoting a loyal school spirit, a spirit of leadership and good fellowship, a better school environment, school activities for the best interests of all, and a close cooperation between students and education.

Every student holds general membership in the student government. There is an elected Student Council at the High School. Elections are held the preceding school year.

Candidates must circulate petitions for office, campaign, and elections are governed by Student Council. All student council members and class officers will adhere to school rules and the Student Council Constitution.

The Middle School Student Council officers are elected in the spring of the prior school year. During the fall of the current school year, one representative and one alternate is elected from each section.
